

Frustration

Frustration

Description:

Simple in concept but frustratingly difficult to master! The player drops the ball into the game at the top and must then balance it on the rocking beam in the middle - it's harder than it looks.

Suitable for teenagers and adults and great at any fun day, corporate event, wedding, youth club, birthday party or any other event you may be having. The ball is contained within the game so won't get lost and it sets up in seconds.

Game throughput is high as each round generally lasts a few seconds, with players coming back time and time again as they nearly manage to do it.

Tournament Suggestions:

Frustration can be used in a number of ways.

- 1) The players race against the clock to see how fast they can balance the ball.
- 2) Each player is given a limited number of goes to try and balance the ball, the winner uses the least number of attempts

	Ready for play
Height	65 cm
Width	80 cm
Depth	15 cm
Weight	8 kg

Note: All dimensions and weights are approximate.

Power Requirements:

Input Voltage: No power required
Input Power:
Fuse - Mains Lead:

Frustration does not require any power.
