

Timer

Description:

The Timer is battery powered and ideal for timing participants / entrants in competitions such as “It’s A Knock Out”, or on assault courses. Also useful for counting down the time remaining for activities such as Quad Bikes or Go Karts. The Timer is available in a variety of colours allowing a different colour to be used for each participant or team. It has a 35mm top hat built into the base allowing it to be mounted on a standard speaker stand for easy of use outdoors.

The display is visible in full sunlight and also dims at night or indoors so as not to dazzle. The built in battery will power the unit for up to 8 hours, (less in bright sunlight).

Timer Colours

| | Timer Unit |
|--------|------------|
| Length | 20 cm |
| Width | 15 cm |
| Height | 15 cm |
| Weight | 2 kg |

Note: All dimensions and weights are approximate.

Power Requirements:

Input Voltage: 90 - 264 VAC
Input Power: 36 Watts

The Timer comes with a UK style mains adapter for charging the battery. Other types of adapters can be supplied on request.
